

Dear Ecco RV Clients,

Re: Access to RV Storage During Greenline Construction

Please be advised the City of Calgary has closed the south access gate to the Ecco RV Storage area for Green Line construction.

While the City is undertaking this phase of construction, to gain access to your RV unit during our operating hours please use the main gate, if you need to access your unit after our operating hours, please contact our Security Personnel at 403-371-7364 for assistance.

When you arrive on site, please proceed as follows and obey all traffic signage:

- Drive toward the large light grey building on the right-hand side;
- Turn right in front of this building and follow the road to the stop sign;
- At the stop sign make sure it is safe to proceed; there is traffic coming from the scale on your right and other traffic from on site operations may come from the left;
- Once it safe to do so, turn left at the stop sign;
- Just past the very large stop sign, turn right onto the gravel road;
- Follow the gravel road down the hill and proceed past all the tents on the right-hand side;
- Once you are past all the white tents (large and small) turn right;
- Drive directly west to the next gravelled road to access the RV Storage area.

We have also attached a map to assist you with the new access.

Access to the RV Storage area will continue to be from 6:00 a.m. to 10:00 p.m., seven (7) days per week. For security purposes there are multiple cameras throughout the property monitoring all roadways, the scale and the main entrance. These cameras are monitored throughout the day during operating hours, and the main gate is monitored after hours by security personnel.

If you have any questions or require additional information, please contact us by email at info@eccorecycling.com.

Thank you and happy travels,

The Ecco Team
